Milk Substitution Request Form (For non-dairy beverages only)

Instructions:

Part A: 1. – 6. General Information: Complete the information as directed.

7. Check One: Check (v) a box to indicate whether a participant has a disability or non-disability that creates a need for a fluid milk substitute. The appropriate authority must sign based on the request.

Part B: Parent or Medical Authority request for non-dairy substitution

Describe the reason or condition that requires a non-dairy milk substitute. List requested substitutions. The institution will select a (soy) drink that meets USDA nutritional requirements for a non-dairy substitution. Generally, soy drinks are the only non-dairy substitution that may contain sufficient protein to meet part of the USDA nutritional requirements for non-dairy substitutes.

Part C: Doctor diagnosed disability

Provide a brief description of the major life activity affected by the disability and how the physical or medical condition affects the disability. For example, "Child is allergic to casein in milk, which results in breathing difficulties, and requires a non-dairy substitute." Specific medical prescription substitute for cow's milk.

List specific substitution. Brand names are not required.

13.–21. Signatures/Contact Information: Complete this information as directed.

Part A: General Information					
1. Institution	2. Facility	3. Facility Direct	or & Telephone Number		
4. Name of Child		-			
5. Name of Parent or Guardian		6. Telephone Ni	6. Telephone Number		
7. Check One: The child <u>does not have a disability</u> . A fluid milk substitution is being requested for the child. Institutions					
participa	ting in federal nutrition program	ns may choose to accommodate	this request by providing a USDA		
approved	d fluid milk substitute. A reason	other than parental preference	must be given (The lifestyle of Vegan		
	is acceptable). A licensed medical physician, physician's assistant, registered nurse, nurse practitioner,				
•		must sign this form. (complete F	•

Part E: To be completed by the institution						
☐ Additional information needed	☐ Approves non-disability request	☐ Denies n	on-disability request			
Institution Comments:						
Signature of authorized institution represe	Date:					

Definition of Disability

Under Section 504 of the Rehabilitation Act of 1073 and the Americans with Disabilities Act (ADA) A Person with a Disability is defined as: any person who has a physical or mental impairment which substantially limits one or more major life activities, has a record of such impairment, or is regarded as having such an impairment.

Physical or Mental Impairment-(a) any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive, digestive, genitor-urinary; hemic and lymphatic; skin; and endocrine; or (b) any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

Major Life Activities-functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

Major Bodily Functions- functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, cardiovascular, endocrine, and reproductive functions

Record of Impairment-having a history of, or have been classified (or misclassified) as having a mental or physical impairment that substantially limits one or more major life activities. Individuals who take mitigating measures to improve or control any of the conditions recognized as a disability, are still considered to have a disability and require an accommodation.

USDA Guidelines for Accommodating Special Dietary Needs

Disability-Institutions and agencies participating in federal nutrition programs <u>must</u> comply with requests for special dietary meals and any adaptive equipment with a documented disability and completed request form.

Non-disability-Institutions and agencies participating in federal nutrition programs <u>may</u> comply with requests for non-disabling medical conditions. Accommodations will be made on a case-by-case basis. However, if accommodations are made for a specific medical condition, complete requests for the same medical condition for other participants must be accommodated.

Fluid Milk Substitutions-Fluid milk substitutions apply to non-disability requests. Institutions and agencies participating in the federal nutrition program <u>may</u> accommodate complete requests with a USDA approved non-milk equivalent. If accommodations are made for one child requesting a fluid milk substitute, accommodations must be made for all children requesting a fluid milk substitute.

The USDA is an equal opportunity provider and employer.
